

# Hullabaloo 22

A summer of celebration with the children and young people of Ipswich, supported by ICEP

**ICEP** The ICEP is a fast-growing partnership of people and organisations from arts, education, community sectors and beyond who work together to increase young people's access to cultural education and creativity in Ipswich. It has over 70 members at present, ranging from freelance artists to the Job Centre, major venues to school teachers, and many more. **Anyone with an interest in improving the lives of children and young people in Ipswich is welcome to join!** <https://ipswichlcep.wordpress.com/contact/>

## Hullabaloo 22

This is the first major collaborative project for the ICEP. It will unite activity under a shared theme of 'Tell Your Story' to give more young people and children the time, space and platform to celebrate their identity and have a voice through culture. With ICEP support, Hullabaloo 22 will deliver:

- **A summer-long programme of activity between March - August 2022**
- The festival will draw together and amplify a mixture of **existing and new** activity, events, outputs and projects from providers across Ipswich, **online and in-person**
- The **'Tell Your Story'** theme will provide a unifying framework for activity while allowing space for a wide variety of art forms and approaches to flourish
- **New targeted projects** will directly address barriers to participation for young people
- All activity will be amplified by the Hullabaloo **badge and online presence** including a **dedicated website** to share your profile/activity and free marketing materials
- **Joint programming opportunities and events** will support collaborations between education settings, arts and community organisations, artists and young people.

## Join the celebrations

- Everyone is welcome to get involved and showcase what they are doing under the Hullabaloo banner!
- Use the Hullabaloo platform to share your Tell Your Story project and promote events you are running for young people and their families. Get in touch at the end of this year or join the mailing list below
- Have a chat about ideas for connecting with cultural spaces and contacts. We are here to support collaborations including with people who are new to the cultural offer in Ipswich
